CHECKLIST ENVIRONMENTAL ASSESSMENT SEPTIC TANK PUMPERS

1. PROJECT PURPOSE AND NEED FOR AGENCY ACTION:

Mr. Keith Richard Kingsolver of SHUR CLEAN PORTABLE TOILETS, INC has submitted an application for a Montana Septic Tank Pumpers License (STP License S-1001). SHUR CLEAN PORTABLE TOILETS, INC is located in Flathead County at 957 Mountain Meadow Road, Kalispell, MT and proposes to do business in Montana in Flathead, Glacier, Lake, Lincoln, Sanders, Missoula, and Ravalli counties.

The purpose of this checklist Environmental Assessment (EA) is to document environmental issues related to the disposal of septage and grease trap waste in Flathead County on the Ray Sanders Property located in Section 2, T27N, R21W.

2.	DESCRIPTION OF PROPOSED ACTION:					
	Septic Tank Pumper Disposal site application for a:					
	(check one only and complete a separate assessment for each site)					
	Wastewater Treatment Facility					
	□ Land Application Site					
	Septage Processor or Composter					
	Class II Landfill					
	Other (specify)					
3.	OPERATION & MAINTENANCE (O&M) PLAN:					
	Source, Types and Amount of Wastes:					
	Septage – estimated total gal/year					
	≥ Portable Toilet/Vault Toilet Type Waste – estimated total gal/year 39,000					
	Grease Trap Waste - estimated total gal/year					
	Sump Pumpings (specify type below)					
	Automatic Car Wash Bay Sump - estimated total gal/yr					
	Attended Car Wash Bay Sump - estimated total gal/yr					
	Unattended Car Wash Bay Sump - estimated total gal/yr					
	Other Sump, specify: estimated total gal/yr					

4. DISPOSAL SITE CHARACTERISTICS:

YES	NO	N/A	
\boxtimes			Legal description of proposed disposal site location provided?
\boxtimes			General description of disposal site location provided?
\boxtimes			Acreage adequate to manage proposed waste volume? 20 acres
\boxtimes			Total proposed volume less than/equal to AAR?
\boxtimes			Setback boundaries detailed on site map? (buildings, roads, drainages)
\boxtimes			Distance to building greater than 500-feet?
			Distance to state surface water greater than 150-feet?
\boxtimes			Distance to state, federal, county, or city maintained road greater than 100-feet?
\boxtimes			Distance to drinking water supply source greater than 100-feet?
\boxtimes			Slope of land surface less than 6-percent? (subsurface injection less than 12%)
			1% slope indicated
			Depth to ground water greater than 6-feet?
			Landowner's permission of site use provided?
			VAPR method provided?
		\boxtimes	AAR calculation provided? If not, then: $AAR = 60/.0052 = 11,538$ gal/acre and
\bowtie			80/.0052 = 15,384gal/acre
			Crop/yield information provided? Wheat @60#N/acre and Barley @ 80#N/acre
\boxtimes			Current use of proposed disposal site noted?
		\boxtimes	Approval available from WWTP within 25 miles of the point of generation
			during year when ground frozen or snow covered?
\boxtimes			Disposal site property ownership information provided?
\boxtimes			Site restrictions noted?
			Animal Grazing
\boxtimes			Crop Harvesting
\boxtimes			List of equipment to manage wastes provided? Tractor/disc & duckbill for
			spreading.
\boxtimes			Site access control noted? Fence & gate
\boxtimes			VAPR method noted?
			VAPR method adequate for site conditions?
If 'NO)' che	$\mathbf{cked} \ \overline{\mathbf{fo}}$	r one or more items, provide explanation below

AAR calculated by Department based upon information provided by licensee.

5. DESCRIPTION AND ANALYSIS OF REASONABLE ALTERNATIVES WHENEVER ALTERNATIVES ARE REASONABLY AVAILABLE AND PRUDENT TO CONSIDER:

The Department considered three alternatives:

- 1. Approve the disposal site. The site meets all of the requirements of the Cesspool, Septic Tank, and Privy Cleaners Act (Act). The site soils, slope, depth to ground water, approvals, and setback requirements have been met.
- 2. Not approve the land application site. The site fails to meet the requirements of the Act.
- 3. Have the applicant seek an alternative site. If this alternative is chosen, the applicant will have to seek another site for land application and could spend a large amount of time and potentially money to locate, study, and license another site suitable for septage land application.

6. EVALUATION OF MITIGATION, STIPULATIONS AND OTHER CONTROLS ENFORCEABLE BY THE AGENCY OR ANOTHER GOVERNMENT AGENCY:

The proposed land application site and operation and maintenance plan must meet the requirements of the Montana Septic Tank, Cesspool, and Privy Cleaners Act, Air and Water Quality Acts and other Montana environmental laws and regulations as well as County ordinances. Compliance with these laws and regulations should keep any environmental effects to a minimum. The licensee will operate the site under the guidelines of the approved Operations Plan.

7. FINDINGS:

The Department finds that there would be little or no impacts to the physical and human environment if the septage is treated in a manner consistent with the rules and regulations. Therefore, a checklist EA is the appropriate level of analysis and an Environmental Impact Statement is not needed. This treatment option is a beneficial reuse of a waste product.

EA prepared by: Renai Hill

Date: June 7, 2007

TABLE 1. Predicted Impacts of the Proposed Project on the Physical & Biological Environments.

	LEVEL OF IMPACT ¹							
RESOURCE	Major	Moderate	Minor	None	Unknown	Appendix		
Terrestrial and Aquatic Life and Habitat				~				
2. Water Quality, Quantity, and Distribution				~				
3. Geology and Soil Quality, Stability and Moisture				~				
4. Vegetation Cover, Quantity and Quality				~				
5. Aesthetics				~				
6. Air Quality				~				
7. Unique, Endangered, Fragile or Limited Environmental Resources				~				
8. Demands on Environmental Resources of Water, Air, and Energy				~				
9. Historical and Archaeological Sites				~				

¹ CUMULATIVE IMPACTS: None for the Proposed Project, because compliance with the Montana Cesspool, Septic Tank, and Privy Cleaners Act mitigates impacts on human health and the environment and no other projects affect the area.

TABLE 2. Predicted Impacts of the Proposed Project on the Social & Economic Environments.

	LEVEL OF IMPACT ¹					
RESOURCE	Major	Moderate	Minor	None	Unknown	Appendix
1. Social Structure and Mores				~		
2. Cultural Uniqueness and Diversity				~		
3. Local and State Tax Base and Tax Revenue				~		
4. Agricultural or Industrial Production				~		
5. Human Health				>		
6. Access to and Quality of Recreational and Wilderness Activities				~		
7. Quantity and Distribution of Employment				~		
8. Distribution of Population				✓		
9. Demands for Government Services				✓		
10. Industrial and Commercial Activity				>		
11. Locally Adopted Environmental Plans and Goals				~		

¹ CUMULATIVE IMPACTS: None for Proposed Project, because compliance with the Montana Cesspool, Septic Tank, and Privy Cleaners Act mitigates impacts on human health and the environment and no other projects affect the area.
